

Carrick Family Donates

\$500,000

towards the Markham Stouffville Hospital Expansion

“Our family is fortunate to have such a great facility as Markham Stouffville Hospital so close to where we live.”

The Carrick family has had a close connection to the hospital for many years. John Carrick received care and all seven of the Carrick grandchildren were born at the Hospital. Over the years, they have visited the Emergency Department for various sports related injuries.

The Carrick family knows firsthand how important it is to have great healthcare close to home and take pride in being able to give back to their community.

Kathleen Carrick and her family proudly unveil the signage after generously donating towards the Hospital expansion.

“We are pleased to support Markham Stouffville Hospital Foundation in this important expansion project.”
